

August 28, 2023

Dear Community Partners,

I regret to inform you that we must cancel all immunization clinics until further notice effective August 29, 2023. Please share the list of other low cost clinic resources with your families to access immunization/vaccination resources. We will continue to offer our translation services at this time for any folks in need immunization record translations. We value being out in the community serving your students and families; we are doing our best to be back out there as soon as possible.

Sincerely,

Hayley Searight

Partners for Healthy Kids, Program Supervisor
