I. Preliminary Matters / Introduction

Board of Directors

The Board of Directors of TEACH Public Schools is a policy-making board which oversees the fundamental aspects of the School. The Board, when fully constituted shall be composed of at least five (5) and no more than nine (9) directors, including parents and community members. Board members shall have expertise in finance, law, non-profit governance, fundraising, school leadership, and academic program development. It shall consist of at least three members with career public school teaching experience, one member with legal background, one member representing the business community, one member representing parents, and one member with governmental experience. The members will have a two-year term. The TEACH Public Schools Principal and the Executive Directors shall be ex officio members of the Board. In accordance with Education Code Section 47604(b), the authority that grants the charter to a charter school to be operated by a nonprofit public benefit corporation shall be entitled to a single representative on the Board of Directors of the School. There shall be a non-voting member of LAUSD on the Board of Directors, as appointed by the District.

Annual Notification and Guidelines

This Student Family Handbook enumerates sections of the Education Code that require annual parent guardian notification. (Education Code 48980[a])

California state law governs the basic operation of public schools, and the legislature regularly passes new laws affecting the quality and availability of education, as well as laws mandating that local school districts undertake new responsibilities.

These laws often require that TEACH adequately inform parents of the opportunities and protection to which they are entitled. TEACH complies with this by providing families with this Annual Notification in the Student Family Handbook at the beginning of each school year and by issuing the same publication to new families as they enter TEACH schools during the year.

The following contains a summary of state law provisions with which all parents and guardians should be familiar. In some cases, the laws have been summarized, and the precise code number has been provided should parents require more detailed information. "Education Code" is the area of state law that affects education most directly.

The Student Family Handbook will be published annually. All registered families of TEACH Public Schools will indicate their willingness to be governed by the Student Family Handbook by signing annually a written statement to that effect. The Administration reserves the right to amend the Handbook at any time for just cause. Parents of TEACH Public Schools students will be notified of the changes, in writing, in a timely manner.

Our academic program offers a fully inclusive curriculum that puts all students on track for academic proficiency and eventual college success. The school's curriculum framework is developed for {TK-5} grades with the explicit purpose of helping all students reach grade-level proficiency and beyond by the end of {TK-5} grade. The school model pulls together curricular and instructional practices proven most effective with a strong emphasis on low achieving students who are struggling academically in the traditional school setting. All teaching and learning is directed toward student mastery of the California State Standards as well as key college-prep skills, learning strategies, and work habits crucial for long-term academic success.

Our students will move through an age-appropriate curriculum for English-Language Arts, Mathematics, History- Social Studies, Science, and Visual/Performing Arts at each grade level.

Student Recruitment

Students are considered for admission without regard to ethnicity, national origin, gender, disability or sexual orientation. With the exception of proof of immunizations (or acceptable legal alternative), an enrollment application, and birth certificate, no requirements for admission exist. There will be no test or interview as a condition to enrollment in TEACH Preparatory Mildred S. Cunningham & Edith H. Morris Elementary School. No Tuition will be charged. TEACH Preparatory Mildred S. Cunningham & Edith H. Morris Elementary School is nonsectarian.

Application Process

The application process is as follows:

1. Completion of the student enrollment forms
2. Parent signature of School Contract
3. Proof of Immunizations
4. Home Language Survey
5. Completion of Emergency Medical Information Form

Applications of Admission

Applications will be accepted during a publicly advertised open enrollment period each spring for the following school year. Following the close of the open enrollment period, applications will be reviewed to determine whether the number of applicants for any grade level exceeds the number of available seats. Returning students are guaranteed enrollment for the following school year and are not included in the lottery process.

If the number of applications exceeds the number of available seats in any grade level, TEACH Tech Charter High School will conduct a public random lottery for that grade level. All individuals who have expressed interest in enrollment will be notified of the date, time, and location of the lottery and will be encouraged to attend. All prospective students who have submitted a complete application during the open enrollment period will be included in the lottery.

In accordance with the School's sibling preference, a separate public random lottery will first be conducted for applicants who have a sibling currently enrolled at TEACH Tech Charter High School. Available seats will be offered to sibling applicants in the order established by that lottery until either all sibling applicants have been offered admission or all available seats have been filled. If seats remain after all sibling applicants have been considered, a second public random lottery will be conducted for all remaining applicants who do not have a sibling currently enrolled at the School.

Names will be drawn at random until all available seats for the grade level have been filled. After capacity has been reached, the remaining applicants will continue to be drawn at random to establish the waitlist in the order selected. If separate sibling and non-sibling lotteries are conducted, the waitlist will first include any remaining sibling applicants in the order established by the sibling lottery, followed by non-sibling applicants in the order established by the non-sibling lottery. Students will be offered admission from the waitlist as openings occur during the school year. Under no circumstances will a waitlist carry over to the following school year.

Our Extended Day- Extended Year

Our extended daily schedule offers additional academic programming and culture-building, character-building, personalized support systems, and activities to help students develop the personal skills and resilience they need for college and life success.

- Tutoring - After or before school classes where students receive individual guided practice and homework assistance from teachers and tutors. The tutoring period is explicitly designed to respond to student achievement data and target student areas of difficulty. Students will also be coached and given the opportunity to practice the learning strategies and work habits that they encounter in their regular course work. For those students needing further intervention, one-on-one tutoring and supplementary remedial instruction may be provided. Teachers and staff usually invite students who are struggling that need extra support.
- After school Program will be offered for students where homework assistance, enrichment work and online programs will be utilized, as well as arts and crafts and physical activity will be provided. The hours will be from 3:00pm-6:00pm. Signs ups will be available during Orientation. (Rules regarding After school Program- refer to All Stars Program guidelines). Morning care will also be available from 6:50am-8:15am.
- Summer Session - Summer programs will provide critical support for struggling students as well as acceleration and enrichment opportunities for students who have reached grade-level proficiency.

Report Cards & Progress Reports

TEACH Public Schools believes that regular, transparent communication regarding academic progress is vital to student success. Report cards and progress reports serve as official records of a student's academic growth and mastery of grade-level standards.

•

Trimester System: TEACH Prep Elementary operates on a Trimester Grading System. Official, final report cards will be printed and distributed three (3) times per school year at the conclusion of each trimester block. These final marks serve as the formal academic record of term completion.

Grading System

The grading scale is based on the degree to which students demonstrate proficiency on content area standards. The academic grade scale is composed of 4, 3, 2, or 1.

4- 100%-90% (Exceeds Expectation)

3- 89%-75% (Meets Standards)

2- 74%-55%. (Approaching Proficiency Mastery Standards)

1- 54% and Below (Not Approaching Standards)

- Evidence of student learning can be captured using classroom work (formative) and benchmark tests as well as teacher created assessments (summative).
- Students are graded on mastery of the required California Standards. The comprehensive report cards at the end of each academic semester is information to parents about the student's performance in the core curriculum subjects and related elective courses.
- These reports should be examined by the parent/guardian. Non-custodial parents may request a copy of student reports by contacting the office in writing.

- Access Without Consent: Third-party access requires written parental consent. An exception is made for school personnel who are involved with the student and have a legitimate educational need for the information.
- Right to Challenge: If a record is believed to be inaccurate or misleading, a formal written request must be submitted to the office manager or principal. This written challenge must explicitly explain what is being challenged, why, and what is required to remediate the situation.
- Filing Complaints: No person or entity may condition benefits, employment, credit, or insurance on surrendering temporary record data. Families have the right to contact the U.S. Department of Education to report any alleged compliance failures.

3. Directory Information

A listing of directory information (student name, parent/guardian name, address, and telephone number) is made available to authorized school organizations only as needed.

- Opt-Out: If a parent/guardian does not wish to have their name listed, they must indicate this in writing to the principal prior to the start of school.

Make Up Work

Parents may and are encouraged to get make-up work for a child who is absent due to illness or injury. Parents are asked to call the school before 10:00 a.m. on the day the make-up work is to be picked up. This gives the teacher adequate time during the day to organize needed materials. Materials may be picked up from the office at the end of the school day.

Science Laboratory Instruction

Students involved in science laboratory experiences shall be protected from contamination from body fluids of other persons and from contaminated instruments. Whenever possible, laboratory experiences involving body fluids will be conducted by way of teacher demonstration rather than by student participation.

Library/Textbooks

TEACH Prep Elementary focuses on literacy. Excellent reading materials will be provided for students at school. Teachers will assign reading assignments through our curriculums that are online/hard copy as well as from their intervention programs, along with their paper copies. Continuous efforts will be made to teach and model proper use and care of all school books, materials, equipment, and supplies. Students and parents will be held financially responsible for any willful or unnecessary damage to or loss of books, materials, equipment, and supplies belonging to School Name.

If school materials along with either a Chromebook or iPad have been distributed to the students to take home and a student should damage or lose a textbook, digital equipment, or classroom supplies, he/she will need to pay the cost of the repairs or replacement. Parent and student will meet with an Administrator to go over the damage/lose as well as the repayment or replacement of the materials.

Parents are encouraged to have their children read at least 20-30 minutes a day. Reading helps develop comprehension and vocabulary skills.

Student Supports and Protections

Section 504 Plan

Section 504 of the Rehabilitation Act of 1973, states that no otherwise qualified handicapped individual in the United States...shall, solely by reason of his handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance. (29 USC 794)

- Compliance monitored by the Office of Civil Rights.
- Applies to all institutions receiving federal financial assistance, such as public schools.
- Schools are obligated to provide a "free appropriate public education" (FAPE) to children with a disability.

Section 504 prohibits discrimination while assuring that disabled students have educational opportunities and benefits equal to those provided to non-disabled students. If you would like to know more about 504 Plans or other types of assistance available to your student, please contact your Principal.

Special Education Determination for eligibility for special education and services may come from teachers, parents, agencies, appropriate professional persons, and from other members of the public. Special Education referrals will be coordinated with school site procedures for referral of students with needs that cannot be met with modifications of the regular instructional program, including referrals from student intervention teams, such as the Student Study Team (SST). A student shall be referred for special education and services after the resources of the regular education program have been considered and, where appropriate, utilized.

Student Study Team (SST)

The Student Study Team is an efficient and effective way to bring together all resources, human and programmatic, to support students having difficulties in regular classes. This is a concentrated solution-seeking meeting where all the needed persons, including the student and parent, are present at the same time. The SST is an expression of the school's concern for students and provides a supportive atmosphere for students to become actively involved in determining their own needs and in implementing strategies designed to help them. The SST meets to determine what assistance is needed for students who have learning difficulties or who have repeated behavior problems. The team consists of the principal, teacher, parent and others associated with the student's area of need.

Integrating Physical Activity into the Classroom Setting

For students to receive the nationally-recommended amount of daily physical activity (i.e., at least 60 minutes per day) and for students to fully embrace regular physical activity as a personal behavior, students need opportunities for physical activity beyond physical education class. Toward that end:

- classroom health education will complement physical education by reinforcing the knowledge and self-management skills needed to maintain a physically-active lifestyle and to reduce time spent on sedentary activities, such as watching television;

Daily Physical Education (P.E.) 5-10

All students in grades K-5 including students with disabilities, special health-care needs, and in alternative educational settings, will receive weekly physical education for the entire school year. All physical education will be taught by a certified physical education teacher. Student involvement in other activities involving physical activity (e.g., interscholastic or intramural sports) will not be substituted for meeting the physical education requirement. Students will spend at least 50 percent of physical education class time participating in moderate to vigorous physical activity.

- A minimum of 100 minutes for every 10 school days for students in grades K-5
- Schools shall be encouraged to annually administer the physical fitness test designated by the State Board of Education to students in grades 5, 7, and 9.

Physical Activity Opportunities Before and After School

After-school child care and enrichment programs when appropriate will provide and encourage – verbally and through the provision of space, equipment, and activities – daily periods of moderate to vigorous physical activity for all participants.

Physical Activity and Punishment

Teachers and other school and community personnel will not use physical activity (e.g., running laps, pushups) or withhold opportunities for physical activity (e.g., recess, physical education) as punishment.

III. Student Health, Safety and Wellbeing

Health and Safety

Emergency Contact Information & Cards

For the safety of every child, it is mandatory that parents/guardians complete, sign, and date an Emergency Card prior to the start of the school year. Returning families may update specific emergency and contact details digitally during brief windows over the summer through our student information system, Aeries, via the online Parent Data Confirmation Process. Please note that verbal consent or over-the-phone requests cannot be accepted; all emergency updates must be explicitly submitted in writing. If there is no telephone in the home, the number of a dependable relative or family friend must be provided. Parents/guardians must report any changes in address, telephone numbers, employment, physicians, or the names of persons authorized to pick up the child to the main office immediately.

Accidents, First Aid, and Emergency Care

While TEACH Preparatory Mildred S. Cunningham & Edith H. Morris Elementary School ("TEACH Prep Elementary") makes every reasonable effort to prevent student accidents, injuries may still occur. The Principal or designee maintains strict procedures to ensure that first aid and/or professional medical attention is secured as quickly as possible and that parents/guardians are notified immediately. In accordance with health regulations, universal precautions are strictly observed by all staff members whenever contact with blood or body fluids is possible. All student accidents are appropriately documented and reported by school staff.

Immunizations

Immunization Requirements

TEACH Preparatory Mildred S. Cunningham & Edith H. Morris Elementary School adheres to all California state laws relating to legally required immunizations for entering students, pursuant to Health and Safety Code Sections 120325-120375 and Title 17, California Code of Regulations (CCR) Sections 6000-6075. California law mandates that a complete, valid immunization record be presented to school staff before a child can be enrolled or attend campus. TEACH Prep Elementary requires official written verification from a physician, health clinic, or the California Immunization Registry (CAIR) confirming that the student has received all required doses for school entry.

To safely enroll in Transitional Kindergarten (TK) through 5th grade, students must have documented proof of the following immunizations:

- Diphtheria, Tetanus, and Pertussis (DTaP/DTP)
- Poliomyelitis (Polio)
- Measles, Mumps, and Rubella (MMR)
- Hepatitis B and Varicella (Chickenpox)

Under California law, exemptions based on personal or religious beliefs are not accepted for school entry. If a student has a medical condition that makes a required vaccine unsafe, a licensed California physician must submit a medical exemption request digitally through the California Immunization Registry Medical Exemption website (CAIR-ME). The school can only accept official medical exemptions generated and approved directly through this state system.

Pursuant to Title 17, CCR Section 6035, students who have fallen behind on vaccines may be granted provisional Conditional Admission, provided they have already commenced receiving doses of all required vaccine series and are not currently overdue for any doses at the time of entry. Custom or personalized delayed schedules created by parents or providers are not permitted; the catch-up process must strictly adhere to the intervals dictated by the California Department of Public Health (CDPH) Conditional Admission Schedule.

Tuberculosis (TB) Screening Requirement (TK/K and New Enrollments)

In accordance with mandates set forth by the Los Angeles County Department of Public Health, all new students enrolling in Transitional Kindergarten (TK) through 12th grade must complete a tuberculosis evaluation upon school entry.

- **Mandatory Risk Assessment:** Parents/guardians must submit a completed LAC Pediatric TB Risk Assessment Form filled out and signed by a licensed healthcare provider. This assessment must be performed within one (1) year before or up to 90 days after the student's first school entry date.
- **Determining the Need for Testing:** A physical TB skin test (TST) or blood test (IGRA) is not automatically required for all children. The need for a physical laboratory test or chest X-ray will be determined solely by the healthcare provider based on whether risk factors are identified during the questionnaire assessment.
- **Conditional 90-Day Grace Period:** To prevent delays in school attendance, students should not be excluded from school or school activities while the TB evaluation is actively in progress. Families are granted a strict 90-day grace period from the date of first school entry to submit the finalized, doctor-signed documentation to the main office. If a TB risk factor is identified, a TB Clearance Form must also be completed by the provider. Failure to provide the required documentation within the 90-day window will result in the student's immediate exclusion from school until compliance is met.

Physical Examinations

California law requires all children entering 1st grade to have a comprehensive physical examination to ensure they are healthy and ready to learn (Health and Safety Code Section 124085).

Here are the simple, important details you need to know:

1. The Timeline Window

The physical exam must be completed by a licensed doctor or clinic within:

- 18 months before your child starts 1st grade, OR
- 90 days after their first day of 1st grade.

(If your child had a check-up during their Kindergarten year, that exam likely already counts!)

2. What Forms to Turn In

You must turn in one of the following documents to the Main Office:

- The Doctor's Form: The official state form titled "Report of Health Examination for School Entry" (Form PM 171A), filled out and signed by your pediatrician.
- The Waiver Form: If you choose not to or are unable to get this health screening for your child, you must sign and submit an official Waiver Form.

3. The Deadline and Consequences

You have a 90-day grace period from the first day of school to turn in either the doctor's form or the signed waiver.

4. Changes in Medical Health

If your child's medical status changes at any time during the school year, please provide the Main Office with a written note from their doctor.

Communicable, Contagious, or Infectious Disease Prevention Policy

All students and employees shall be provided appropriate periodic instruction in basic procedures recommended by the State Department of Education and other public health agencies and associations.

Injuries and Accidents

Whenever exposed to blood or other body fluids through injury or accident, students and staff should follow the latest medical protocol for disinfecting procedures. (See "Blood borne Pathogen Exposure Control Program" Policy)

Illness

If a child is ill he or she should not attend school. Students who contract a contagious disease such as pink eye, chicken pox, ringworm, impetigo, head lice or other such conditions should not attend school. The child should remain at home until he or she is no longer contagious and declared healthy by a health professional. A doctor's note is required for the student to return to school. If a student has a fever, a student should remain out of school until they are fever-free for at least 24 hours without the use of fever-reducing medications (e.g., Tylenol, Motrin).

Medication at School

Students are not permitted to carry medication (including inhalers for asthma). If a doctor's note is on file, the Office manager will be permitted to dispense the medication to the student.

The school office and the student's teacher must be informed of any prescription medication that a student is required to take at school. To dispense prescription medication to students, the school must receive a written order from the student's doctor and a permission slip from the student's parent. These notifications must remain on file at the school for duration of time that the student is required to take the medication. All medication should be brought to the office manager by the parent/guardian in its original prescription container, labeled with the student's name, the name of the medication, the date of expiration, and the proper dosage.

Administration of Medications

TEACH Preparatory Elementary School staff is responsible for the administration of medication to students attending school during regular school hours. It is imperative that practices followed in the administration of medication be carefully delineated to ensure the safety of our students and the legal protection of our employees. Any pupil who is required to take, during the regular school day, medication prescribed for him or her by a physician or surgeon, may be assisted by designated school personnel or may carry and self-administer prescription auto-injectable epinephrine if the School Name receives the appropriate written statements

In order for a pupil to carry and self-administer prescription auto-injectable epinephrine, TEACH Preparatory Elementary School shall obtain both a written statement from the physician or surgeon detailing the name of the medication, method, amount, and time schedules by which the medication is to be taken, and confirming that the pupil is able to self-administer auto-injectable epinephrine, along with a written statement from the parent, foster parent, or guardian of the pupil consenting to the self-administration, providing a release for the designated school personnel to consult with the health care provider of the pupil regarding any questions that may arise with regard to the medication, and releasing School Name and school personnel from civil liability if the self-administering pupil suffers an adverse reaction as a result of self-administering medication.

In order for a pupil to be assisted by designated school personnel, TEACH Prep shall obtain both a written statement from the physician detailing the name of the medication, method, amount, and time schedules by which the medication is to be taken and a written statement from the parent, foster parent, or guardian of the pupil indicating the desire that School Name assist the pupil in the matters set forth in the statement of the physician.

Guidelines:

- The primary responsibility for the administration of medication rests with the parent/guardian, student and medical professional.
- Medication shall be administered only during school hours if determined by a physician to be necessary.

- Designated staff shall keep records of medication administered at the school.
- All medication will be kept in a secure and appropriate storage location and administered per physician's instructions by appropriately designated staff.
- Designated staff shall return all surplus medication to the parent/guardian upon completion of the regimen or prior to summer holidays.
- Designated staff shall establish emergency procedures for specific medical conditions that require an immediate response (i.e. allergies, asthma, diabetes).
- The written statements specified in this policy shall be provided at least annually and more frequently if the medication, dosage, frequency of administration, or reason for administration changes.
- A pupil may be subject to disciplinary action if that pupil uses auto-injectable epinephrine in a manner other than as prescribed.

Medication Policy

The following procedures will be in effect for the monitoring and use of medication at school:

- Medication will only be allowed at school when failure to take medication could jeopardize the health and/or educational abilities of the student.
- Medication is restricted to students with long-term chronic illnesses or disabilities including, but not limited to, diabetes, attention disorders, asthma, seizure activity, epilepsy, cystic fibrosis, cardiac, neurological, and endocrine disorders. Any other medications should be given by parents/guardians before and/or after school hours.
- No medicines may be administered at school unless directed by a doctor.
- The student must have a medical form completed by the attending physician and his/her parents or guardian on file with the school office.
- All medicine must be in a labeled prescription container and must be kept in the designated place in each building. All asthma inhalers should be kept in the office (labeled) unless a note from a doctor states the inhaler should be kept on the person
- Instructions for dispensing, as well as a date, must be on the container
- Students are expected to take their medication during passing times or lunch times.
- Students are to remember the conditions under which they are to request their medicine.
- Teachers or other personnel are not required to administer the medicine. They may, however, supervise the student taking the medicine.

Note: All medication must be submitted to the office for safe keeping and cannot be in a student's backpack or on them, unless specific doctor's approval is provided with specific direction and reason why for certain conditions.

Guidelines to Help Promote a Healthy Environment

Children are most vulnerable to contracting diseases while in school because of the close contact they maintain. While we cannot prevent this from occurring, with your help we can implement some simple guidelines to help promote a healthy environment.

1. Teach your child the importance of correct hand washing as a means of preventing the spread of germs.
2. Proper disposal of tissues and covering one's mouth when coughing also prevents germs from circulating.
3. If your child is coughing excessively, keep him or her home to prevent exposure to other children.
4. A child should be fever free for 24 hours before returning to school. Temperature may indicate the onset of an illness.
5. A child should remain home if he or she has vomited or experienced diarrhea within a 24-hour period.
6. Communication is essential to maintaining a healthy environment. Please report any contagious diseases your child has been diagnosed to have (e.g., strep throat, chicken pox, pink eye, etc.). The more we know, the better prepared we are to keep your child on the road to good health. When necessary, notices containing information regarding health matters will be sent home

First Aid, CPR, and Health Screening

TEACH Preparatory Elementary School recognizes the importance of taking appropriate preventive or remedial measures to minimize accidents or illness at school or during school-sponsored activities. To this end, the school expects parents/guardians to provide emergency information and keep such information current in order to facilitate immediate contact with parents/guardians if an accident or illness occurs.

Within the TEACH Preparatory Elementary School facilities, a First Aid Kit containing appropriate supplies will be present. First aid will be administered whenever necessary by trained staff members. When necessary, the appropriate emergency personnel will be called to assist.

Resuscitation Orders

Staff members are prohibited from accepting or following any parental or medical "do not resuscitate" orders. School staff should not be placed in the position of determining whether such orders should be followed, and such Advance Directives shall not be communicated to staff.

Head Lice

To prevent the spread of head lice infestations, TEACH Preparatory Elementary School employees shall report all suspected cases of head lice to the school nurse or designee as soon as possible. The nurse, or designee, shall examine the student and any siblings of affected students or members of the same household. If nits or lice are found, the student shall be excluded from attendance and parents/guardians informed about recommended treatment procedures and sources of further information.

The Principal, or designee, shall send home the notification required by law for excluded students. If there are two or more students affected in any learning center, an exposure notice with information about head lice shall be sent home to all parents/guardians of those students.

Staff shall maintain the privacy of students identified as having head lice and excluded from attendance. Excluded students may return to school when reexamined by the nurse, or designee, shows that all nits and lice have been removed.

Fire and Earthquake Drills

Fire and earthquake drills will be conducted throughout the year. Students are expected to follow teacher instructions.

SFA Wellness Policy

Due to children's need to access healthy foods and opportunities to be physically active in order to grow, learn, and thrive; TEACH Schools is committed to providing school environments that promote and protect children's health, well-being, and ability to learn by supporting healthy eating and physical activity. Therefore, it is the policy of TEACH SFA that:

- The schools will engage students, parents, teachers, food service professionals, health professionals, and other interested community members in developing, implementing, monitoring, and reviewing TEACH SFA school-wide nutrition and physical activity policies.
- All students in grades TK-5 will have opportunities, support, and encouragement to be physically active on a regular basis.
- Qualified child nutrition professionals will provide students with access to a variety of affordable, nutritious, and appealing foods that meet the health and nutrition needs of students; will accommodate the religious, ethnic, and cultural diversity of the student body in meal planning; and will provide clean, safe, and pleasant settings and adequate time for students to eat.
- Schools will provide nutrition education and physical education to foster lifelong habits of healthy eating and physical activity, and will establish linkages between health education and school meal programs, and with related community services.

Breakfast

To ensure that all children have breakfast, either at home or at school, in order to meet their nutritional needs and enhance their ability to learn:

- Schools will, to the extent possible, operate the School Breakfast Program.
- Schools will, to the extent possible, arrange bus schedules and utilize methods to serve school breakfasts that encourage participation, including serving breakfast in the classroom, "grab-and-go" breakfast, or breakfast during morning break or recess.
- Schools that serve breakfast to students will notify parents and students of the availability of the School Breakfast Program.
- Schools will encourage parents to provide a healthy breakfast for their children.

Free and Reduced-priced Meals

Schools will make every effort to eliminate any social stigma attached to, and prevent the overt identification of, students who are eligible for free and reduced-price school meals⁵.

Meal Times and Scheduling

Schools:

- will provide students with enough time to consume their meal after it has been served.
- should schedule meal periods at appropriate times, e.g., lunch should be scheduled between 11 a.m. and 1 p.m.;
- should not schedule tutoring, club, or organizational meetings or activities during mealtimes, unless students may eat during such activities;
- will encourage students to wash or hand sanitize hands before they eat meals or snacks; and
- should take reasonable steps to encourage the tooth-brushing regimens of students with special oral health needs (e.g., orthodontia or high tooth decay risk).

Sharing of Foods and Beverages

Schools should monitor students sharing their foods or beverages with one another during meal or snack times, given concerns about allergies and other restrictions on some children's diets.

Snacks

Snacks served during the school day or in after-school care or enrichment programs will make a positive contribution to children's diets and health, with an emphasis on serving fruits and vegetables as the primary snacks and water as the primary beverage. Schools will assess if and when to offer snacks based on timing of school meals, children's nutritional needs, children's ages, and other considerations. The TEACH SFA will disseminate the guidelines for compliant snacks.

- If eligible, schools that provide snacks through after-school programs will pursue receiving reimbursements through the National School Lunch Program.

Students may bring nutritious snacks (fresh fruit, granola bars, cheese, yogurt, peanut butter and crackers) for break time only. No chips, cookies, or candies will be eaten during Nutrition snack time. Birthday Parties can be set up with the teacher prior to the event at teacher's discretion. For parents wanting to bring sweets, school will allow items such as cupcakes, cookies, any pastries, things that are already individualized without needing any cutting for birthday celebrations. Any individual goodie bags for the whole class may be permissible at teacher's discretion.

Rewards

Schools are encouraged not to use foods or beverages, especially those that do not meet the nutrition standards for foods and beverages sold individually (above), as rewards for academic performance or good behavior,¹⁰ and will not withhold food or beverages (including food served through school meals) as a punishment.

Celebrations

Schools should limit celebrations that involve food during the school day to no more than one party per class per month. It is encouraged that each party include no more than one food or beverage that does not meet nutrition standards for foods and beverages sold individually (above).

Food Marketing in Schools

School-based marketing will be consistent with nutrition education and health promotion. As such, schools will limit food and beverage marketing to the promotion of foods and beverages that meet the nutrition standards for meals or for foods and beverages sold individually (above).¹¹ School-based marketing of brands promoting predominantly low-nutrition foods and beverages¹² is prohibited. The promotion of healthy foods, including fruits, vegetables, whole grains, and low-fat dairy products is encouraged.

Examples of marketing techniques include the following: logos and brand names on/in vending machines, books or curricula, textbook covers, school supplies, scoreboards, school structures, and sports equipment; educational incentive programs that provide food as a reward; programs that provide schools with supplies when families buy low-nutrition food products; free samples or coupons; and food sales through fundraising activities. Marketing activities that promote healthful behaviors (and are therefore allowable) include: sales of healthy food for fundraisers.

TEACH SFA highly values the health and well-being of every staff member and will encourage that support personal efforts by staff to maintain a healthy lifestyle.

Physical Education and Physical Activity Opportunities

Qualifications of School Food Service Staff

Qualified nutrition professionals will administer the school meal programs. As part of TEACH SFA it is our responsibility to operate a food service program, we will provide continuing professional development for all nutrition professionals in schools. Staff development programs should include appropriate certification and/or training programs for child nutrition directors, school nutrition managers, and cafeteria workers, according to their levels of responsibility.⁶

School-Sponsored Events

(such as, but not limited to, athletic events, dances, or performances)

It is encouraged that foods and beverages offered or sold at school-sponsored events outside the school day meet the nutrition standards for meals or for foods and beverages sold individually (above).

Nutrition Education and Promotion

TEACH SFA aims to teach, encourage, and support healthy eating by students. It's encouraged that schools provide nutrition education and engage in nutrition promotion that:

When appropriate, TEACH SFA will work together with local public works, public safety, and/or police departments in those efforts. TEACH SFA will explore the availability of federal "safe routes to school" funds, administered by the state department of transportation, to finance such improvements. TEACH SFA will encourage students to use public transportation when available and appropriate for travel to school, and will work with the local transit agency to provide transit passes for students.

We recognize that some inappropriate material on the Internet may be accessed intentionally or by accident. To guard against this we will use a filtered service from a reliable software provider which regularly monitors web sites.

Incident reports and records shall not identify the student who reported the possession. The strategy shall also include means of informing staff, students and parents/guardians that students who report the presence of injurious objects on school campuses are to be protected and their identity shielded.

Discipline

TEACH Preparatory Elementary School believes that learning best occurs in an environment that consistently incorporates Character Education, and Discipline into a sound academic program. We believe that discipline and learning are directly related. Given the proper environment, we believe that children exhibit their best learning in appropriate ways. In a joint effort of parents and school, students of School Name are taught and expected to follow the discipline guides as set forth by the School 's Board of Directors:

Responsibility

- Do what you are supposed to do; when you are supposed to do it

Personal Attributes

- Cordiality

- Responsiveness

TEACH Preparatory Elementary School believes that all children can learn when taught well. We recognize that the ultimate objective of education is to enable students to become successful, self-directed learners. This goal is best achieved in a culture of acceptance, high expectation, encouragement, support, and positive motivation. Teachers have a responsibility to maintain a positive learning environment. Discipline is a process by which students are helped to develop an understanding of, and an appreciation for appropriate behavior toward a sound learning experience. The process includes positive behavioral interventions. Any student who interferes with their right or the right of others to learn is engaging in inappropriate behavior. Inappropriate behavior is subject to disciplinary consequences. Students engaging in inappropriate behavior, or students who have conflict with another, is subject to disciplinary consequences. Our students are taught and encouraged to manage and resolve conflict on their own through positive communication skills. If after doing so, students feel that the problem is not resolved, the conflict should be reported to the teacher.

General disciplinary problems may result in disciplinary action by teachers and/or by the principal. The Principal has primary responsibility for defining the school's culture to ensure that student discipline is implemented in a fair, effective manner. Teachers handle discipline. Instructional aides and staff may assist with discipline. Instructional aides and school staff members will make every effort, individually, collectively, and cooperatively to help each student gain acceptable self-discipline standards. Students with repeated behavior problems are referred to the Student Success Team. This team includes the student, parent, teacher, principal and counselor. An action plan is developed to help the student develop constructive behavior patterns.

Restorative Justice

At TEACH Prep, we believe in working with students to repair any harm they may have caused to others through their words or actions. Students accomplish this through a cooperative process that includes all stakeholders, which can lead to positive changes in individuals, relationships, and our school community. When conflicts arise, our goal is to help students learn from the experience rather than simply receive a consequence. Staff members facilitate restorative conversations and mediations between students, providing a safe and respectful environment where each person has an opportunity to express their thoughts, feelings, and perspectives. Through guided discussion, students develop the skills to communicate effectively, resolve disagreements peacefully, and understand the impact of their choices on others. During the restorative process, students are encouraged to take responsibility for their actions, acknowledge any harm they have caused, offer sincere apologies when appropriate, and accept apologies from others. Together, students identify ways to repair relationships and discuss strategies for making better decisions in the future. These conversations promote accountability, empathy, problem-solving, and healthy communication while reinforcing the importance of resolving conflicts through respectful dialogue rather than physical or inappropriate reactions. Our restorative approach helps students build strong interpersonal skills, develop self-awareness, and contribute to a safe, supportive, and inclusive school community where everyone is treated with dignity and respect.

V. Parents

Parents

Parent Involvement

A key piece of the school culture to support achievement for all students is a process of continuous communication and collaboration with families. As the student moves through the school year, his/her progress toward individual goals is carefully tracked and shared monthly with families through the means of a Personalized Learning Plan.

Therefore, parental Involvement at TEACH Preparatory Elementary School is required. Our parents are encouraged to participate individually and as a group for the benefit of the school.

Parent Participation

- Enhances the quality of education children receive
- Provides for greater integration of the educational program
- Promotes better understanding between parent and teacher, between parent and child; between home and school; and between school and the community.
- Parental involvement plays an important role in the life of the school and in the resolution of classroom behavior issues.

Required Parental Attendance

The Board of Directors of TEACH Preparatory Elementary School believes that parental involvement plays an important role in the life of the school and in the resolution of classroom behavior problems. The Board expects that teachers will communicate with parents/guardians when behavior problems arise.

Whenever a student is removed from a class because he/she committed an obscene act, engaged in habitual profanity or vulgarity, disrupted school activities or otherwise willfully defied valid school authority, the teacher of the class from which the student was removed may provide that the student's parent/guardian attend a portion of a school day in that class. After completing the classroom visit and before leaving school premises, the parent/guardian shall also meet with the school Principal or designee.

The Board of Directors encourages teachers, before requiring parental attendance, to make reasonable efforts to have the parent/guardian visit the class voluntarily. The teacher may also inform the parent/guardian about available resources and parent education opportunities. Teachers should reserve the option of required parental attendance for cases in which they have determined that it is the best strategy to promote positive interaction between the student and the parent/guardian and to improve classroom behavior.

The teacher shall apply this policy uniformly to all students within the classroom. This policy shall apply only to a parent/guardian who lives with the student.

Parental attendance may be requested on the day the student returns to class or within one week thereafter. The Principal or designee shall contact any parents/guardians who do not respond to the request to attend school. The Board recognizes that parental compliance with this policy may be delayed, modified or prevented for reasons such as serious illness/injury/disability, absence from town, or inability to get release time from work.

Conditions for Classroom and School Visitation and Removal Policy

While TEACH Prep Elementary encourages parents/guardians and interested members of the community to visit TEACH Prep Elementary and view the educational program, we also endeavor to create a safe environment for students and staff.

To ensure the safety of students and staff as well as to minimize interruption of the instructional program, the school has established the following procedures, pursuant to California Penal Code Sections 627, ET. seq., to facilitate visits during regular school days:

1. Visits during school hours should first be arranged with the teacher, Principal, or designee, at least three days in advance. If a conference is desired, an appointment should be set with the teacher during non- instructional time, at least three days in advance. Parents seeking to visit a classroom during school hours must first obtain the written approval of the classroom teacher, Principal, or designee.
2. All visitors shall register with the front office immediately upon entering any school building or grounds during regular school hours. When registering, the visitor is required to provide his/her name, his/her purpose for entering school grounds, and proof of identity. For purposes of school safety and security, the office will provide a visitor with a Visitor's pass to wear as they are being accompanied through the school and any classrooms.
3. The Principal, or designee, may refuse to register an outsider if he or she has a reasonable basis for concluding that the visitor's presence or actions would disrupt the school, its students, its teachers, or its other employees; and/or would result in damage to property; would result in the distribution or use of unlawful or controlled substances.
4. The Principal or designee may withdraw consent to be on campus even if the visitor has a right to be on campus whenever there is reasonable basis for concluding that the visitor presence on school grounds would interfere or is interfering with the peaceful conduct of the activities of the school, or would disrupt or is disrupting the school, its students, its teachers, or its other employees.
5. The Principal or designee may request that a visitor who has failed to register, or whose registration privileges have been denied or revoked, promptly leave school grounds. When a visitor is directed to leave, the Principal or designee shall inform the visitor that if he/she reenters the school without following the posted requirements he/she will be guilty of a misdemeanor.
6. Any visitor that is denied registration or has his/her registration revoked may request a hearing before the Executive Director or the Board on the propriety of the denial or revocation. The request shall be in writing, shall state why the denial or revocation was improper, shall give the address to which notice of hearing is to be sent, and shall be delivered to either the Executive Director or the Board President within five days after the denial or revocation. The Executive Director or Board President shall promptly mail a written notice of the date, time, and place of the hearing to the person who requested the hearing. A hearing before the Executive Director shall be held within seven days after the Executive Director receives the request. A hearing before the Board shall be held at the next regularly scheduled Board meeting after the President receives the request.
7. The Principal or designee shall seek the assistance of the police in dealing with or reporting any visitor in violation of this policy.
8. No electronic listening or recording device may be used by students or visitors in a classroom without the teacher's and Principal's permission.

Conditions for Classroom and School Visitation and Removal Policy Penalties

1. Pursuant to the California Penal Code, if a visitor does not leave after being asked or if the visitor returns without following the posted requirements after being directed to leave, he/she will be guilty of a crime as specified which is punishable by a fine of up to \$500.00 or imprisonment in the County jail for a period of up to six (6) months or both.
2. Further conduct of this nature by the visitor may lead to the school's pursuit of a restraining order against such visitor, which would prohibit him/her from coming onto school grounds or attending school activities for any purpose for a period of three (3) years.

Volunteers

Volunteers must come to the office and sign in and sign out when volunteering. A volunteer badge must be worn while on campus. Additionally, all volunteers must have TB test and finger print clearance and have the results on file with the office.

Releasing Students

If a student becomes too ill to remain in school, a staff member will contact the parents by telephone. The parent is required to pick the child up or arrange for the child to be picked up by an authorized person. Parents must have the name and contact telephone number of an authorized person on the emergency card.

TEACHERS ARE NOT PERMITTED TO RELEASE CHILDREN WITHOUT OFFICE APPROVAL.

Parents or guardians who wish to take students home before regular dismissal time must come to the school's office for an official release from class. If a student has a specific medical condition, health problem or security need, this information must be reported in writing at the time of enrollment or as soon as it is known, so that appropriate accommodations can be made for the student.

Parent/Teacher Conference

Parents may be required to accompany their child through a school day to monitor and observe his or her behavior. Parents may be required to confer with school staff to concentrate efforts to assist a chronically misbehaving student. There will be two required Parent-Teacher Conferences parents need to attend either in person or via zoom (1st and 2nd trimester). Third trimester Parent-Teacher Conference will be only by request by teacher or by parent.

Picking Up Students from School

If you will be picking your student up before the end of the school day, please send a note to the office, as well as the classroom teachers. If someone other than a parent or guardian is to pick up your child, a signed note is REQUIRED and the adult MUST be named in the Emergency Card.

After-School Pick-Up of Students

Please note the parking signs. Double parking is illegal, unsafe and prohibited. The parking lot off Western Ave is for teachers and staff, please refrain from parking in the lot. Students will be dismissed from the front gate off 85th street, you may find a parking spot and pick up your child or if you drive up coming from St. Andrews St onto 85th Street, we will guide your student into your car. Please be mindful to not block driveways as you pass through the pick up line.

VI. Operations

School-Sponsored Events

(such as, but not limited to, athletic events, dances, or performances)

It is encouraged that foods and beverages offered or sold at school-sponsored events outside the school day meet the nutrition standards for meals or for foods and beverages sold individually (above).

Communications with Parents

The TEACH SFA/school will support parents' efforts to provide a healthy diet and daily physical activity for their children. The TEACH SFA will, send home nutrition information, post nutrition tips on school websites, and provide nutrient analyses of school menus when available. Schools should encourage parents to pack healthy lunches and snacks and to refrain from including beverages and foods that do not meet the above nutrition standards for individual foods and beverages.

The TEACH SFA/school will provide information about physical education and other school-based physical activity opportunities before, during, and after the school day; and support parents' efforts to provide their children with opportunities to be physically active outside of school.

Food Marketing in Schools

School-based marketing will be consistent with nutrition education and health promotion. As such, schools will limit food and beverage marketing to the promotion of foods and beverages that meet the nutrition standards for meals or for foods and beverages sold individually (above).¹¹ School-based marketing of brands promoting predominantly low-nutrition foods and beverages¹² is prohibited. The promotion of healthy foods, including fruits, vegetables, whole grains, and low-fat dairy products is encouraged.

Examples of marketing techniques include the following: logos and brand names on/in vending machines, books or curricula, textbook covers, school supplies, scoreboards, school structures, and sports equipment; educational incentive programs that provide food as a reward; programs that provide schools with supplies when families buy low-nutrition food products; free samples or coupons; and food sales through fundraising activities. Marketing activities that promote healthful behaviors (and are therefore allowable) include: sales of healthy food for fundraisers.

Staff Wellness

TEACH SFA highly values the health and well-being of every staff member and will encourage that support personal efforts by staff to maintain a healthy lifestyle.

Physical Education and Physical Activity Opportunities

Use of School Facilities Outside of School Hours

School spaces and facilities should be available to students, staff, and community members before, during, and after the school day, on weekends, and during school vacations. These spaces and facilities also should be available to community agencies and organizations offering physical activity and nutrition programs. School policies concerning safety will apply at all times.

Monitoring

The Wellness Committee will ensure compliance with established TEACH SFA school-wide nutrition and physical activity wellness policies. In each school, the principal or designee will ensure compliance with those policies in his/her school and will report on the school's compliance to the TEACH SFA Wellness Committee.

School food service staff, at the school level, will ensure compliance with nutrition policies within school food service areas and will report on this matter to the Wellness Committee (or if done at the school level, to the school principal). In addition, TEACH SFA will report on the most recent USDA Administrative Review findings and any resulting changes.

The Wellness Committee will develop a summary report periodically on TEACH SFA school-wide compliance with TEACH Schools established nutrition and physical activity wellness policies, based on input from schools within TEACH SFA. That report will be provided to the school board and also distributed to all school health councils, parent/teacher organizations, school principals, and school health services personnel in TEACH SFA schools.

Monitor and Policy Review

Policy Review

To help with the initial development of the TEACH SFA wellness policies, each school in the TEACH SFA will conduct a baseline assessment of the school's existing nutrition and physical activity environments and policies.¹³ The results of those school-by-school assessments will be compiled by the Wellness Committee level to identify and prioritize needs. Assessments will be repeated periodically to help review policy compliance, assess progress, and determine areas in need of improvement. As part of that review, TEACH SFA will review our nutrition and physical activity policies; provision of an environment that supports healthy eating and physical activity; and nutrition and physical education policies and program elements. TEACH SFA, and individual schools within TEACH SFA, will, as necessary, suggest revisions to the wellness policies and develop work plans to facilitate their implementation.

Complaints within the scope of the UCP are to be filed with the person responsible for processing complaints:

Mr. Matt Brown

Executive Director TEACH Public Schools

10600 S. Western Ave.

Los Angeles, CA 90047

A pupil fee includes a purchase that a pupil is required to make to obtain materials, supplies, equipment, or clothes associated with an educational activity.

A pupil fees complaint may be filed with the principal of a school or with our superintendent or their designee. A pupil fees complaint may be filed anonymously, that is, without an identifying signature, if the complaint provides evidence or information leading to evidence to support an allegation of noncompliance.

For complaints relating to Local Control and Accountability Plans (LCAP), the date of the alleged violation is the date when the reviewing authority approves the LCAP or annual update that we adopted. An LCAP complaint may be filed anonymously, that is, without an identifying signature, if the complaint provides evidence or information leading to evidence to support an allegation of noncompliance.

We advise complainants of the right to pursue civil law remedies that may be available under state or federal discrimination, harassment, intimidation or bullying laws, including, but not limited to, injunctions, restraining orders, or other remedies or orders that may also be available to complainants.

- **Step 2: Mediation**

Within three (3) days of receiving the complaint, the compliance officer may informally discuss with the complainant the possibility of using mediation. If the complainant agrees to mediation, the compliance officer shall make arrangements for this process.

Before initiating the mediation of an unlawful discrimination, harassment, intimidation or bullying complaint, the compliance officer shall ensure that all parties agree to make the mediator a party to related confidential information.

If the mediation process does not resolve the problem within the parameters of law, the compliance officer shall proceed with his/her investigation of the complaint.

The use of mediation shall not extend TEACH's timelines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time.

- **Step 3: Investigation of Complaint**

Investigating UCP Complaints

The UCP complaint investigation is our administrative process for the purpose of gathering data regarding the complaint. We provide an opportunity for complainants and/or representatives to present evidence or information.

Refusal by the complainant to provide the investigator with documents or other evidence related to the allegations in the complaint, or to otherwise fail or refuse to cooperate in the investigation or engage in any other obstruction of the investigation, may result in the dismissal of the complaint because of a lack of evidence to support the allegations.

Refusal by TEACH to provide the investigator with access to records and/or other information related to the allegation in the complaint, or to otherwise fail or refuse to cooperate in the investigation or engage in any other obstruction of the investigation, may result in a finding based on evidence collected that a violation has occurred and may result in the imposition of a remedy in favor of the complainant.

We ensure that complainants are protected from retaliation.

We investigate all allegations of unlawful discrimination, harassment, intimidation or bullying against any protected group. Unlawful discrimination, harassment, intimidation or bullying complaints shall be filed no later than six months from the date the alleged discrimination, harassment, intimidation or bullying occurred, or six months from the date the complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation or bullying.

- **Step 4: Response**

Unless extended by written agreement with the complainant, the compliance officer shall prepare and send to the complainant a written report of TEACH's investigation and decision, as described in Step #5 below, within sixty (60) days of TEACH's receipt of the complaint.

- **Step 5: Final Written Decision**

UCP Complaint Resolution

We will thoroughly investigate the UCP complaint and issue a written Investigation Report to the complainant within 60 calendar days from the date of the receipt of the complaint, unless the complainant agrees in writing to an extension of time.

This Investigation Report will contain the following elements:

- the findings of fact based on the evidence gathered;
- a conclusion that provides a clear determination for each allegation as to whether we are in compliance with the relevant law;
- corrective actions if we find merit in a complaint:
 - for complaints regarding Pupil Fees; LCAP; Physical Education Instructional Minutes, or Course Periods without Educational Content, the remedy shall go to all affected pupils, parents, and guardians,
 - for all other complaints within the scope of the Uniform Complaint Procedures the remedy shall go to the affected pupil,
 - With respect to a Pupil Fees complaint, corrective actions shall include reasonable efforts to ensure full reimbursement to all pupils, parents and guardians who paid a pupil fee within one year prior to the filing of the complaint;
 - a notice of the complainant's right to appeal our Investigation Report to the Department of Education (CDE); and
 - the procedures to be followed for initiating an appeal to the CDE.

TEACH's decision shall be in writing and sent to the complainant. TEACH's decision shall be written in English and in the language of the complainant whenever feasible or as required by law.

The decision shall include:

1. The findings of fact based on evidence gathered.
 2. The conclusion(s) of law.
 3. Disposition of the complaint.
 4. Rationale for such disposition.
 5. Corrective actions, if any are warranted.
 6. Notice of the complainant's right to appeal TEACH's decision within fifteen (15) days to the CDE and procedures to be followed for initiating such an appeal.
 7. For unlawful discrimination, harassment, intimidation or bullying complaints arising under state law, notice that the complainant must wait until sixty (60) days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies.
 8. For unlawful discrimination, harassment, intimidation or bullying complaints arising under federal law such complaint may be made at any time to the U.S. Department of Education, Office for Civil Rights.
- If an employee is disciplined as a result of the complaint, the decision shall simply state that effective action was taken and that the employee was informed of TEACH's expectations. The report shall not give any further information as to the nature of the disciplinary action.

UCP Complaint Appeal Process

An appeal is a written and signed request by the complainant to the CDE seeking review of an LEA Investigation Report that was issued in response to a properly-filed complaint. A signature may be handwritten, typed (including in an email) or electronically-generated.

The complainant may appeal our Investigation Report of a UCP complaint to the CDE by filing a written appeal within 30 calendar days of the date. In order to request an appeal, the complainant must specify and explain the basis for the appeal, including at least one of the following:

- TEACH failed to follow its complaint procedures, and/or

The appeal shall be sent with: (1) a copy of the locally filed complaint; and (2) a copy of the LEA Investigation Report.

All complaints and responses are public records.

When investigating a UCP state preschool health and safety issue the preschool program administrator or the designee of the district superintendent shall make all reasonable efforts to investigate any problem within his or her authority, and investigations shall begin within 10 calendar days of the receipt of the complaint. A valid complaint shall be remedied within a reasonable time period, but not to exceed 30 working days from the date the complaint was received.

The resolution of the complaint shall be reported to the complainant within 45 working days of the initial filing. If the preschool program administrator makes this report, he or she shall also report the same information in the same timeframe to the designee of the district superintendent.

General Complaints

The Board of Directors of TEACH Public Schools (“TEACH”) has adopted this General Complaint Policy to address concerns about TEACH generally or regarding specific employees. For complaints regarding harassment or perceived violations of state or federal laws, please refer to the TEACH Anti-Discrimination, Sexual Harassment, Harassment, and Bullying Policy and/or TEACH Uniform Complaint Procedures. For all other complaints, the General Complaint form and accompanying procedures will be appropriate.

Internal Complaints

(Complaints by Employees against Employees)

This section of the policy is for use when an TEACH employee raises a complaint or concern about a co-worker.

If reasonably possible, internal complaints should be resolved at the lowest possible level, including attempts to discuss/resolve concerns with the immediate supervisor. However, in the event an informal resolution may not be achieved or is not appropriate, the following steps will be followed by the Superintendent or designee:

1. The complainant will bring the matter to the attention of the Superintendent as soon as possible after attempts to resolve the complaint with the immediate supervisor have failed or if not appropriate; and
2. The complainant will reduce his or her complaint to writing, indicating all known and relevant facts. The Superintendent or designee will then investigate the facts and provide a solution or explanation;
3. If the complaint is about the Superintendent, the complainant may file his or her complaint in a signed writing to the Chair of the TEACH Board of Directors, who will then confer with the Board of Directors and may conduct a fact-finding or authorize a third-party investigator on behalf of the Board of Directors. The Chair or investigator will report his or her findings to the Board of Directors for review and action, if necessary.

This policy cannot guarantee that every problem will be resolved to the employee’s satisfaction. However, TEACH values each employee’s ability to express concerns and the need for resolution without fear of adverse consequence to employment.

Policy for Complaints Generally

(General Complaints and Complaints by Third Parties against Employees)

This section of the policy is for use when either a complaint does not fall under other complaint procedures or a third party (non-employee) raises a complaint or concern about TEACH generally, or an TEACH employee.

If complaints cannot be resolved informally, complainants may file a written complaint with the office of the Superintendent or Chair of the TEACH Board of Directors (only if the complaint concerns the Superintendent) as soon as possible after the events that give rise to the complainant’s concerns. The written complaint should set forth in detail the factual basis for the complaint.

In processing the complaint, the Superintendent (or designee) shall abide by the following process:

1. The Superintendent or designee shall use his or her best efforts to ascertain the facts relating to the complaint. Where applicable, the Superintendent or designee shall talk with the parties identified in the complaint or persons with knowledge of the particulars of the complaint to ascertain said facts.

2. In the event that the Superintendent (or designee) finds that a complaint is valid, the Superintendent (or designee) may take appropriate action to resolve the problem. Where the complaint is against an employee of TEACH, the Superintendent may take disciplinary action against the employee. As appropriate, the Superintendent (or designee) may also simply counsel/reprimand employees as to their conduct without initiating formal disciplinary measures.

3. The Superintendent's (or designee's) decision relating to the complaint shall be final unless it is appealed to the TEACH Board of Directors. The decision of the Board of Directors shall be final.

General Requirements

1. Confidentiality: All complainants will be notified that information obtained from the complainants and thereafter gathered will be maintained in a manner as confidential as possible, but in some circumstances absolute confidentiality cannot be assured.

2. Non-Retaliation: All complainants will be advised that they will be protected against retaliation as a result of the filing of any complaints or participation in any complaint process.

3. Resolution: The TEACH Board of Directors (if a complaint is about the Superintendent) or the Superintendent or designee will investigate complaints appropriately under the circumstances and pursuant to the applicable procedures, and if necessary, take appropriate remedial measures to ensure effective resolution of any complaint.

HARASSMENT COMPLAINT FORM

It is the policy of the School that all of its employees be free from harassment. This form is provided for you to report what you believe to be harassment, so that the School may investigate and take appropriate disciplinary or other action when the facts show that there has been harassment.

If you are an employee of the School, you may file this form with the Principal or Board President.

Please review the School's policies concerning harassment for a definition of harassment and a description of the types of conduct that are considered to be harassment.

The School will undertake every effort to handle the investigation of your complaint in a confidential manner. In that regard, the School will disclose the contents of your complaint only to those persons having a need to know.
