## TEACH Uniform

Hello TEACH Academy families,

Here at TEACH Academy, we take pride in our school uniform. Every student is expected to enter class wearing their TEACH Polo. Many years ago, our school's founders made sure that every polo had the TEACH logo embroidered onto the shirt, directly above the heart. This was so that throughout the school day, students could touch and truly feel a sense of connection, pride, and belonging in the raised stitching of the embroidered logo. The logo itself is 4 sideways Ts, which interlock to represent the "Ladder to Success."

Our founders also believed strongly that hats, beanies, and hoodies can never be worn on the student's head at school. We want our students to take pride in who they are, as opposed to covering themselves up. Exposing our face and hair can create a sense of vulnerability for some. It's not until that fear is conquered that true learning in the classroom begins.

Thank you for helping us maintain our uniform policy. Our children will benefit, and our founders would thank you. Rest in peace Mrs. Edith Morris and Mrs. Mildred Cunningham.

Mr. Gomez, Interim Principal

# After School All Stars Program Coordinator: Nadine Louis

Hello,

I am Nadine Louis, and I'm the TEACH Academy of Technologies program coordinator for After School All Stars. I hail from Miami, Florida, and have taught middle school for about 10 years. My goal with the program is to enrich student's unique voices with expanded learning. Students have so far been exposed to aquariums, theme parks, and golf courses! They have learned about acting, robotics and rugby. Making sure students have special interests lends them a unique voice and perspective. The goal is that they go to and through college with not just academic skills, but with additional skills and hobbies they can pick up from their time with us. We appreciate all of our All Star families and are always open to connect!

# The Reading Corner

## 15-Minute Reading Routine: Read • Talk • Try

### Step 1: Read Together (5 minutes)

- Child reads a short section (1–2 pages or a short passage)
- If the text is hard, take turns reading

### Step 2: Talk It Out (5 minutes)

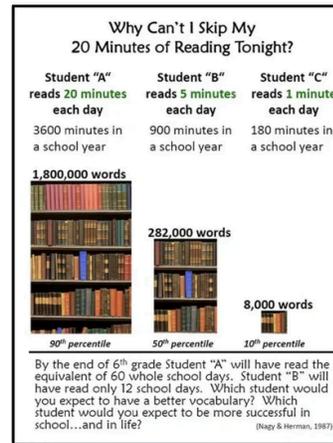

Ask two of these questions:

- What just happened in your own words?
- What part stood out to you?
- Why do you think the character did that?
- What do you think will happen next?

### Step 3: Try Something Creative (5 minutes)

Choose one option:

- Draw It: Sketch a scene, character, or moment
- Act It: Act out a quick part of the story
- Change It: Change the ending or one decision
- Teach It: Child explains the story like a teacher

# The 3–2–1 Data Grouping Strategy (15 minutes max)

## Step 1: Pick ONE data point (3 minutes)

Teachers choose **one recent, low-lift data source**:

- Exit ticket from today or yesterday
- Do Now responses
- i-Ready/Achieve lesson results
- Last quiz or short constructed response

## Step 2: Sort students into 3 groups (5 minutes)

Teachers quickly sort students into **three instructional groups**:

### Group 1 – Ready to Extend

- Met or exceeded the target
- Can explain their thinking

### Group 2 – Almost There

- Partial understanding
- Small errors or gaps

### Group 3 – Needs Immediate Support

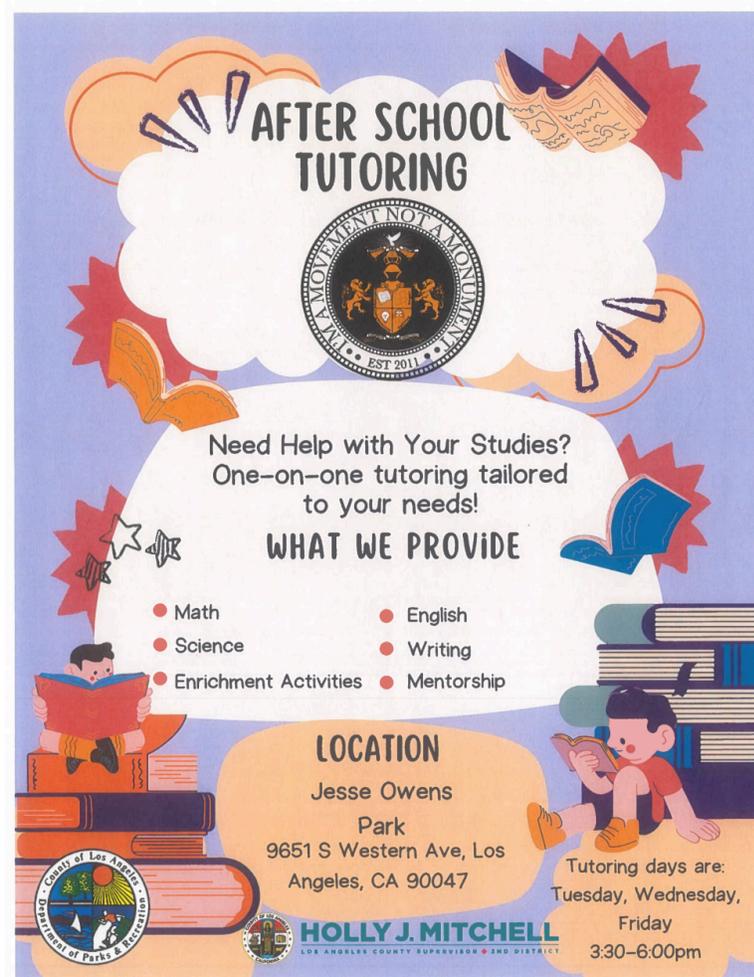

- Major misconceptions
- Did not access the task independently

## Step 3: Assign ONE targeted action per group (5 minutes)

Each group gets **one clear instructional move**:

- **Group 1 (Extend):**
  - Apply, explain, or challenge
  - *Example:* “Explain your thinking to a peer” or “Apply this to a new problem.”
- **Group 2 (Refine):**
  - Re-teach one step or concept
  - *Example:* “Let’s fix one mistake together.”
- **Group 3 (Support):**
  - Direct instruction with teacher
  - *Example:* “I’ll model it once, then we will try together.”
